Washington, D. C.

Dear Sirs:

I would like to volunteer my time and equipment to becoming a U.S. Government shortwave listening post.

At present the only equipment that I am using is a Hallicrafters S-38 and a long wire antenna suspended about 170 above sea level and running North-South.

The following is a list of radio-telephone s.w. stations that have verified my reports (countries), United States, Turkey, Cuba, Canada, Guatemala, French Equatorial Africa, Belgian Congo, Australia, Ecuador, France, Switzerland, Venezuela, England, Philippines, Albania, Uruguay, Argentina, Mexico and Spain. All these stations are commercial.

At present I am expecting verifications from U.S.S.R., Columbia, Dominican Republic, Sweden, Denmark, Germany, Luxembourg, Bulgaria, Jamica B.W.I., Brazil and Liberia. Of these stations Sweden, Germany Denmark, Luxembourg and Liberia are amateurs.

I hope this meets your requirements.

Sincerely

FOIAb6 [redacted]
